Develop a passion for learning

RPS PUBLIC SCHOOL

Co-Education English Medium | CBSE Pattern

Sandha Japla, Palamu, Jharkhand
Ph. No. 6206912662, 9546156695

PREAMBLE

Literacy in the present day scenario plays a vital role in determining the standard of civilization of a particular country. Universal literacy is, therefore, the goal of every nation. Considering the importance of English, the accepted global motion and keep pace with any other advanced countries of the world, the RPS Public School evolves its policies to stress on high standard English literacy which would pave the way to brilliant academic success. With this end in view, the group endeavors to open schools in each and every district of the country so as to impart high quality education through English medium. In order to give education a wide coverage and to make it reach the youngsters at their earliest possible age, steps are taken to open Child Development Centres which would help in pre-schooling and make children psychologically adapted to the process of learning through a novel technique of playful methods. With the rapid growth of population and consequent trend towards productive education, there is need for opening schools in a massive scale and run them effectively. According to statistical reviews, opening at least one school each day in the country cannot even suffice to meet the growing need. As such, the RPS Public School feels proud of contributing its mite towards the fulfillment of this national need.

Shri Sanjay Singh | Managing Director

The Chief architect of the School holds the office as the Managing Director. Being an acclaimed educationist of national repute, a caring benefactor and an able captain, he has been most successfully steering the school and exploring all possibilities to spread education countrywide. Education to him, is not confined to text books to make the student simply a crammer but it possesses a wider scope to bring out one's inner talents to good exposure and develop the skill and courage to stand up for one self against all future eventualities.

He has endeavoured to bring enlightenment and awakening the society through high quality activity blended education for students. No child according to him, is academically ignorable. Potentiality for growth is hidden in one and all. It is the teacher in the institution of learning, who can bring the hidden treasure to a full bloom. Never in life should a teacher experience failure, in transforming a dull one into an intellect incarnate. Due to his able guidance, the arena of education has witnessed the advent of renaissance and the RPS Public School will become the school with difference.

Our Philosophy

We believe in the philosophy of embarking on the mission to enlighten young minds with deliberate and systematic education, inculcate into them the spirit of human as well as social values and spiritual development in harmonious manner, so that they can confidently and with all boldness face their practical lives to gain unthinkable success and prove themselves to be assets to the nation and to the humanity as a whole.

The Objective : Quality Education

The RPS Public School believes in quality education. Quality education is viewed as the kind of education that is not confined to text books alone. It is the kind of education which can fetch the learner all round development in physical, psychological and intellectual sense. Since a healthy mind in a healthy body is sharper and more receptive, the Group aims at conducting a number of activities so as to enrich the psychological aspect of students. English being the accepted global language and a window language as well to imbibe thoughts from the outer world and also to communicate our ideology to others, the school puts much emphasis on spoken, written English and use of correct jargon, together with development of communication and writing skills.

The School with difference

The perceptive teaching to be imparted in School awakens the creative and leadership skills dormant in every child. Education is customized to meet the aspirational demands of youngsters.

The School embark on the mission to enlighten young minds with deliberate and systematic education, inculcate into them the spirit of human as well as social values and spiritual development in a harmonious manner, so that they can confidently face life's hardships, succeed in the struggle for existence and prove themselves assets to humanity. Such contribution of the School to the nation makes the School with Difference.

Tested Teaching Methods

Academic council with eminent educationists has devised teaching methods that are effective and enjoyable. Education based on routine process causes mental fatigue in students. The approach underlying teaching method makes a child desire to learn. The teaching methods are so devised and designed as to create, develop and quench the psychological thirst of a child. Activity blended teaching successfully brings about integral development in the learner.

Co-Curricular Activities

A Child's bent of mind sometimes comes to the forefront through leisure activities and sports. Docility, aggressiveness, leadership, compassion, strength of mind, weakness of mind, reaction to failure, friendship and numerous other traits and facets of a child's personality are revealed through participation in varieties of co-curricular activities. As such, the School has mobilized its efforts to organize activities like games and sports, physical exercises, dance & music, elocution, art and craft, spiritual discourses, picnic and excursion together with various exchange programmes.

Teaching Patterns & Subjects

The school will follow CBSE courses with the subjects like Hindi, Sanskrit, English Language and Literature, Environmental Education Social Studies, General Science, Mathematics, Health Education, Computer Science are also the subjects as per CBSE norms. From Std.V, the pupil is introduced to a third language with an option to be exercised for either Sanskrit or any of the foreign languages like French, German or Arabic. Computer Education is compulsory from Std.-I onwards. In addition to prescribed regular computer courses with Multimedia, and Internet facility for furtherance of skill. We follow eight intelligences.

Parents Teachers Interaction

The school keeps a provision of PTM (parents teachers meeting) at intervals to discuss and identify psychological, academic related problems of individual students and find out solution to them. Help line system has been evolved to strengthen such interaction. Parents and society are the background to bond and bonhomie of evolving a prosperous future.

Parents' Orientation Programme

It is felt that parents play a vital role in the educational system and they need to fully co-operate with the school, honour its rules and procedures for the full flowering development of their wards. Sometimes parents, out of ignorance form low opinion against School and teachers and express the same in presence of their wards. This goes contrary to the process of discipline and causes growth of way-wardness in children. The three phase orientation programmes organized separately for primary, secondary and higher levels help the parents understand the reality of situation for making the teaching methods substantially effective.

Medium of Instruction

English being the international language for communication and indispensable for rapid scientific and technological development of the country, the School is bent upon a wide range of English literacy and, therefore, adopts English as the medium of instruction. However, it leaves no stone unturned to honour Regional and other Indian Languages like Hindi, Sanskrit, etc and place them in school curriculum. It further plans to make provision for teaching foreign languages.

Class Categorisation

Pre Primary to II

Montessori standards introduced into the schools take children from two & half years of their age after pre-schooling till they attain five & half years of age. During this period they cover three classes from Pre Nursery, Nursery and Prep to II. Play way method is used for teaching children of this category.

Forty percent stress is laid on academic management and sixty percent of the total curriculum is earmarked for different activities to generate learning excitement in beginners. Bag less education.

Primary Level (Std. III to V)

During the primary level of education children have to use more of their brain and get an environment to communicate in English. Academic and non-academic activities in this section go at equal proportions.

Middle Level (Std. VI to VIII)

Besides reading, writing, pronunciation and vocabulary, in-depth care is taken to make the children learn behavior, manners etiquette and discipline.

Seventy percent stress is laid on academic curriculum, where-as thirty percent emphasis is given to different other activities.

Secondary School Level (Std. IX to X)

With reduction in activities as far as possible, adequate care is taken for building up good academic career without of-course neglecting physical education. Linguistic development with particular reference to English is planned by adopting various devices like orientation in grammar, vocabulary, usages and composition.

Hundred percent attention is focused on Academic Curriculum, so as to ensure the students the best possible career. Training for appearing & attempting competitive exams.

Higher Secondary Level (Std. XI to XII)

Students during this period are made to be equipped with self confidence, so that they can choose a good befitting career for themselves and become credit not only to themselves but also to the school, to their families and to the nation as a whole. Discipline is emphasized from the very beginning and mock parliaments are held at regular intervals to develop the same. Special training for JEE, NEET etc.

Teacher's Orientation

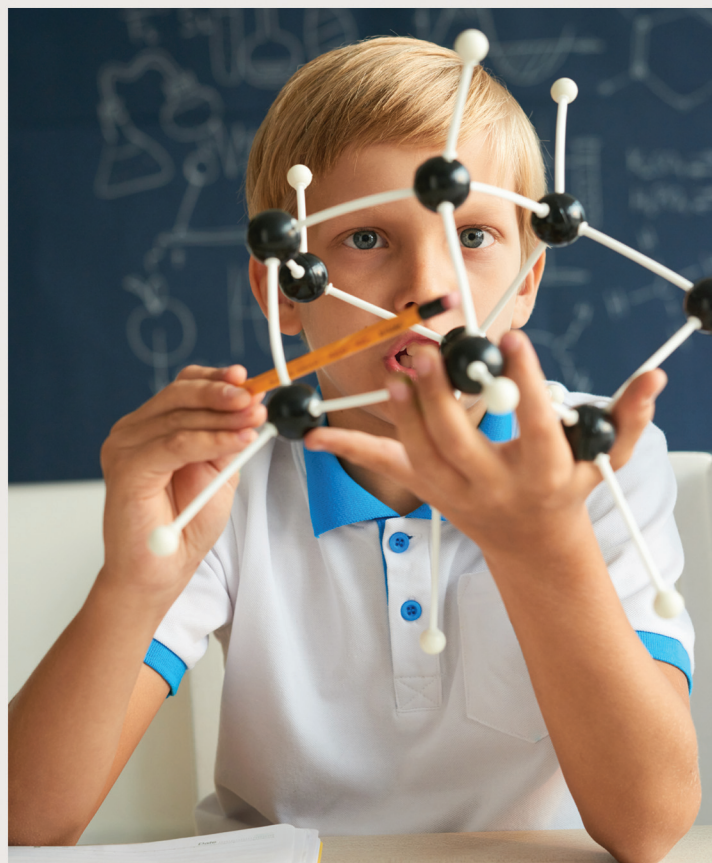

The school does not believe that induction of teachers with brilliant academic achievements behind them together with long experience can alone elevate the academic standard of schools. Time to time training and orientation imparted to teachers can equip them with new developments and fresh invented methods which would ultimately be instilled into students to help their intellectual growth. Renowned Academicians with vast experience conduct the Orientation programmes and train the Teachers.

Retention of teachers plays vital role in order to sustain the progress of the Institution. Provision should, therefore, be made to accord wide recognition to the loyalty, sincerity and dutifulness of teachers with package of benefit in deserving cases. A congenial and pleasant working environment with recreation needs to be provided in order to generate new spirit in teachers and develop in them a sense of attachment and achievement.

Facilities Available

The School extends numerous facilities including :

1. School Bus
2. Well equipped Library e-library
3. Computer Lab with 24 hours internet service

- Gives platform to become a confident and successful individual to serve the society and the nation

ENVIRONMENTAL HEALTH

"A good and organized environment is the best teacher"

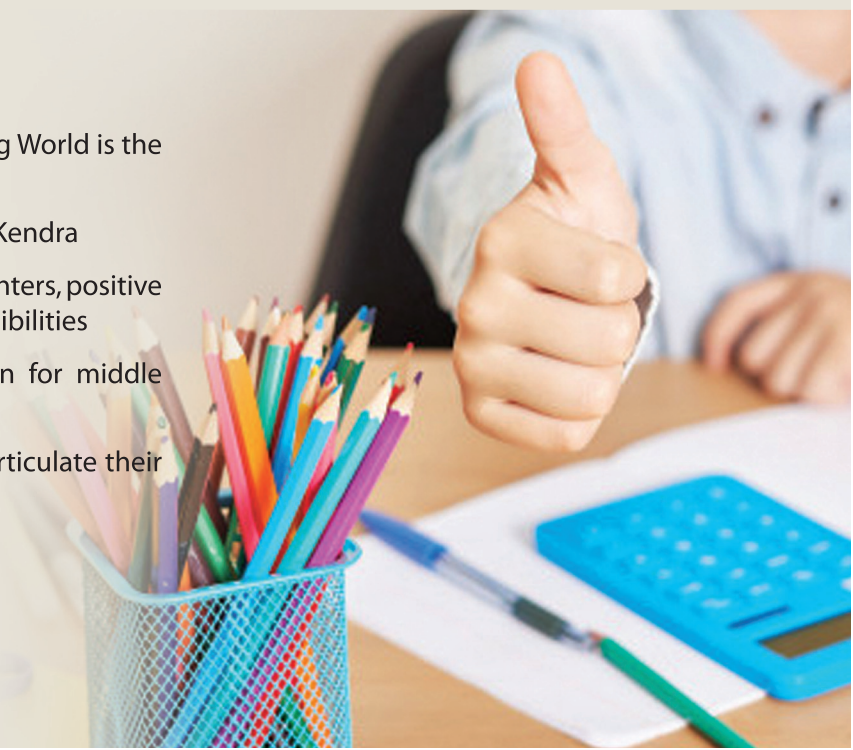

Students will be groomed up as eco friendly citizens. They are taught the value of a clean school- a clean home – a clean city – a clean India and the cleaner World. The eco club of the school encourages the students to discover the ways to conserve natural resources.

SOCIAL HEALTH

Good education is socially accountable.

Reaching out and connecting with the fast moving World is the main target

- Education for the marginalized group – Shiksha Kendra
- Awareness work shop for safe and secured daughters, positive parenting and sense of social duties and responsibilities
- Involving parents in subject week celebration for middle schools
- Within the class, students are encouraged to articulate their views and share their experiences
- Value education / Moral education

AESTHETIC HEALTH

Cultivation of various forms of Art is indeed the Hallmark of good education

Students are encouraged to pursue areas of personal creative interest and the school provides a platform for showcasing these talents through performing arts the individuals and group performance.

- The school has well-equipped music lab and also state of the art audio visual and community Hall.
- Music is taught as a continuous offering at the temple of excellence.
- Dance as a form of art teaches children and reiterates the value of expressing feelings
- Every child is allowed to experience the world in his/her way to develop a personal language of shapes and colour.
- Vipasana & Astachal a regular feature.

PHYSICAL HEALTH

Good sportsman ship is not inherited but is something which everyone can learn and can practice everyday

- Physical education is a very important part of the curriculum. Children learn team spirit – to put the group before the self. They develop the neuromuscular coordination as well as healthy body and mind.
- At RPS children begin to play organized sports like football, cricket, volleyball, basketball, badminton, lawn tennis, kabaddi and kho-kho.
- Splash day is an annual feature for pre-primary school.
- Indoor games like table tennis, chess and carom are regular features
- Martial Arts is a compulsory for all boys and girls
- Students participate in Yoga to build up the coordination and flexibility
- The school band does an yeomen service at all functions

WE CARE-WE SHARE- WE ARE RARE

In an effort to provide the best facility – we are particular about all the little details that make our students live comfortable

The school infirmary is equipped to deal with routine health check up. Dental & Eye check upto Middle school level is our bi-yearly feature of the school. A full time nurse and doctor is on call for emergencies.

- Safe transport facilities are our priority.
- Library is a huge resource centre.
- The school is well-linked with its stakeholders through mobiles and specially designed ERP packages
- Specialized and well-designed curriculum for senior school students for all competitive examinations by our well experienced academicians.
- School believes in Smart work and facilitates the smart workers.
- Provision of Hi-tech connectivity through e-mail & web sites.
- Facility of getting information like daily attendance, academic performance, day to day accounts and over all progress through specially designed electronic systems.
